

# Accelerate Productivity and Security with Insight Expertise and Intel Technology

The modern workplace is a work in progress, but we know we're not going back to the way things used to be.

-  Mobility
-  Distributed workforce
-  Hybrid workplace
-  More worries about security

Insight experts can help businesses build for this new normal with Intel vPro® platform, enabling fast, reliable laptops and desktops that can be efficiently and effectively managed and secured. When you choose the Intel vPro® platform, you're getting everything your business needs to thrive. This integrated platform has the latest PC technologies designed into one validated solution — built to provide what IT needs and employees want.

## Intel vPro® Features:

- Fast processor
- Advanced wireless capabilities
- Built-in endpoint security
- Fast data transfer with Thunderbolt™
- Intel® Active Management Technology (Intel® AMT)

## Benefits of deploying Intel vPro®:

Reduced IT device management support costs

- Organizations report fewer help desk incidents related to desktop management.

Reduced IT device security support costs

- Organizations identified fewer endpoint security incidents.

Fewer IT in-person escalations of IT support tickets

- With tools such as Intel® Active Management Technology (Intel® AMT) and Intel® Endpoint Management Assistant (Intel® EMA), remote support can be managed efficiently.

**"Intel vPro® is really the standard. It's the security of the silicon itself, knowing the manufacturing process and the assurance of consistency."**

– Endpoint solutions architect

## With Intel vPro®:

Organizations\* avoided IT help desk escalations **2,385 to 4,050**

## With Intel vPro®:

Organizations\* added **up to 2 hours** of employee productivity per month

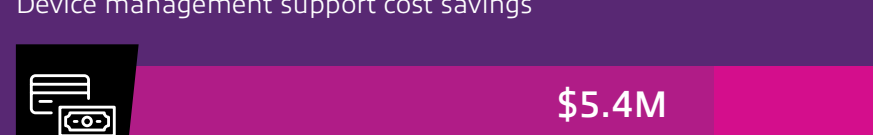

## With Intel vPro®:

Organizations\* avoided security-related tickets **up to 30,000 per year**

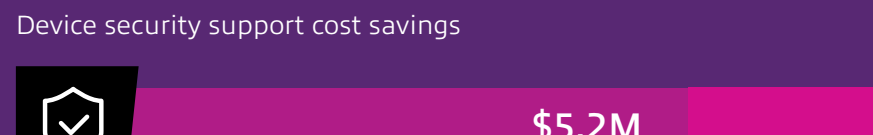

\*Composite organization is a global enterprise with 100,000 employees and 100,000 devices.

## Benefits (Three-Year)

Device management support cost savings

Device security support cost savings

Reduced support in-person escalations

Patching and imaging efficiency with the Intel vPro®-platform

Additional IT resource costs saved related to PC management and security

Third-party software and services cost savings

Employee effectiveness

Desktop support including IT escalation benefits add up to a three-year, risk-adjusted present value of \$12.4 million.

Insight helps businesses eliminate risky gaps and overlaps in security tools with Intel vPro®, which gives IT the embedded visibility and confidence they need to build a flexible, tech-optimized workplace.

- Stronger multilayered endpoint defenses
- Easier remote access/intervention
- Lower cost of IT operations

Deliver greater business benefits across performance, manageability, stability, and security.

Insight expertise and Intel technology can help you **ready, set, accelerate** your business IT performance with major cost reductions.
